

VOLUNTEER FOR OUTDOOR ODYSSEY!

Outdoor Odyssey is a PTA program for students, parent volunteers, and teachers. We work together to develop and use the school's outdoor spaces as outdoor classrooms that promote creative exploration and environmental awareness.

Sign up to be an Outdoor Odyssey volunteer for your child's classroom either at Back to School Night or by talking to your child's teacher. As a classroom volunteer, you will have the opportunity to participate with your child in a variety of activities including:

- Schoolyard stewardship
- Nature scavenger hunts
- Planting & harvesting healthy foods from CRS gardens
- Hands-on events reflecting your child's curriculum
- Spring plant sale

Outdoor Odyssey activities reinforce curriculum-based lessons in math, science, social studies, writing, and art. Classes have about six hour-long activities throughout the school year. No experience necessary!

Join us for Outdoor Odyssey's Kickoff meeting September 6th at 10am. Meet other families interested in bringing the outdoor experience to CRS classes. Learn about our program and the gardens and greenhouses. Bring your children. Refreshments will be served.
